ACT GROUP — National Pilot Base Of Sport Industry

ACT GROUP is an international sports and leisure industrial integration service provider, involving in research & development, production, sales and service. Founded in 2002, ACT was the earliest large-scale domestic manufacturer of artificial grass and stadium seats, and also the first batch of Chinese National Pilot Base of Sports Industry. Headquartered in Guangzhou, Guangdong, ACT owns two manufacturing bases in Qingyuan, Guangdong and Xinxiang, Henan, with key products covering artificial grass, stadium seating, all kinds of sports surface solution, intelligent system, LED large screen, acoustic control system, lighting system, sports facilities and etc.

ACT is capable of providing integrated service such as culture and sports venues consulting & design, advertising planning and creativity, manufacturing, installation commissioning, operation & management, maintenance. And as always, ACT is committed to providing customers with overall cultural and sports industry integrated solutions.

Rooted in China, with global vision, adhering to the "Innovative, Professional, Integrity, People-oriented" enterprise values, ACT GROUP has successfully built a global marketing network and perfect service system, developed domestic & foreign consumption market and exported products to all over the world. With its strong R & D strength, professional manufacturing level and forward-looking strategic decision, ACT GROUP was recognized as Guangdong Province sports field materials and products engineering technology research center in 2016.

As an industry leading brand and high-tech enterprise, ACT has involved in the drafting national standards for many times. And ACT actively cooperated with big domestic and oversea events including: 2008 Beijing Paralympic Games, 2010 Guangzhou Asian Games, 2012 Tianjin Universiade, 2012 Haiyang 3rd Asian Beach Games, 2013 Nanjing Asian Youth Games, 2013 Tianjin East Asian Games, 2014 Nanjing Youth Olympic Games, 2016 Brazil Olympic Games, and 2018 Guangdong Province Sports Games.

"Through continuous innovation, become a highly respected international sports leisure industry leader" is the enterprise vision of ACT GROUP. Looking forward to the future, ACT will continue to stay the core value proposition of LOVE CREATES MIRACLE, make forward-looking development strategy, improve the advanced production technology and innovate management idea. Together with global sports industry peers, ACT will to pilot into a more splendid new mileage!

TELESCOPIC SEATING SYSTEM

Features

- High-strength steel framework, safe, durable & cost-effective
- Anti-slip, waterproof plywood decking to provide higher safety performance
- Apply high efficiency low-noise front-mount motor for driven
- User friendly control box, visually effective and practical

National sports quality supervision and inspection

1.STRUCTURE

High-strength structural support to provide excellent mechanical properties. The bottom in-line wheels can provide protection to the wooden flooring and reduce noise and friction.

3.GUARDRAILS

User-friendly stackable side guardrails. No need to disassemble the side guardrails when the grandstand retracts

5.SURFACE TREATMENT

All metal parts are treated with oil removal, phosphating, electrostatic spraying and other processes to guarantee lifespan over 8 years.

7.ALUMINUM EDGES

The front edge of grandstand adopts 48×80mm special aluminum edges to improve the safety.

9.SAFETY DEVICE

Designed with self-locking device to prevent deviation of the fully extended grandstand .

2.DECKING

Apply high strength durable plywood as decking, which is water proof and fire-resistant.

4.SEAT OPTIONS

6.STEP

Apply same manufacturing process as the decking, sealed with aluminum edges, easy maintenance.

8.SYNCHRONOUS TELESCOPIC DEVICE

The vertical and side supporting wheels help to position the grandstand to prevent deviation, ensuring the grandstand to extend and retract synchronously.

10.OPERATIVE MECHANISM

We provide with manual and electric operative systems for options.

- ① Manual-drive: The grandstand can be pulled in and out simply by one adult.
- ② Power-drive: Apply 3 phase geared motor, with advantages of large reduction ratio, full power and strong adaptability, high efficiency, low noise, less failure, long life, no scratch the floor and etc.

DEMOUNTABLE GRANDSTAND

Features

- High versatility and wide range of application
- Stable structure, safe and reliable
- Modular design, easy and quick assembly, time saving and labor saving
- Anti-corrosion and weather resistance, long service life

PZKT-1

PZKT-2

PZKT-3

Product Description :

Material : High quality galvanized steel framework

Layout : As per site planning

Application : Indoor and outdoor stadiums, football clubs, arenas, etc

Seat: As assorted

Dimension : Rise height: 250mm-350mm, row depth: 700mm-900mm

QUICK ASSEMBLY VIP SEATS

- Features
- High strength steel framework, modular structure, stable and durable
 - Quick disassembly, convenient storage and transportation
 - Suitable for stadiums, concerts, activities, etc

KSPZ Quick Assembly VIP Seats

Innovative high-end quick assembly VIP seats in China
Perfect temporary seating solution to large-scale events

Product description :
ACT's quick assembly VIP seats system applies high strength modular design steel framework, with blow-molding folding chair design. It is durable, easy and quick assembly and disassembly, easy storage, providing perfect temporary seating solution for different kinds of events.

Application : All kinds of gyms, concerts, activities, etc.

Layout : 12 seats/unit.
