A NEW GENERATION OF PADEL COURT

PADEL COURT INTRODUCTION

Padel (or Padel tennis) is a mix between Tennis and Squash. It's a racket sport that combines action with social interaction and fun. It's an ideal game for all ages and abilities, as points are won by strategy more than by sheer strength and power.

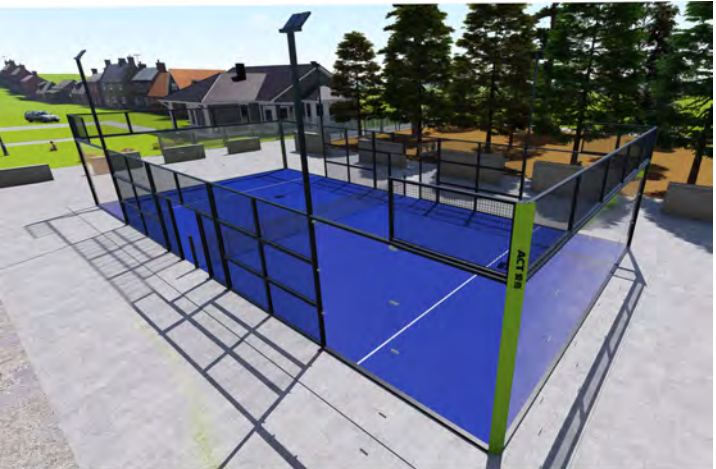

Padel is played in doubles on an enclosed court made of glass and mesh, which is a third of the size of a full-size tennis court. The game is easy to learn, making it ideal for families as it can easily be played with mixed skill levels.

PADEL COURT ASSEMBLY

PADEL COURT CHARACTERISTICS

- Use less area, suitable for indoor or outdoor application;
- Low construction and maintenance costs, easy to promote;
- The enclosure is composed of tempered glass and fence, with selected materials;
- Use professional artificial turf for padel , offer high sports performance;
- Personalize and create exclusive colors.

Professional Padel Grass :

Professional Padel Grass

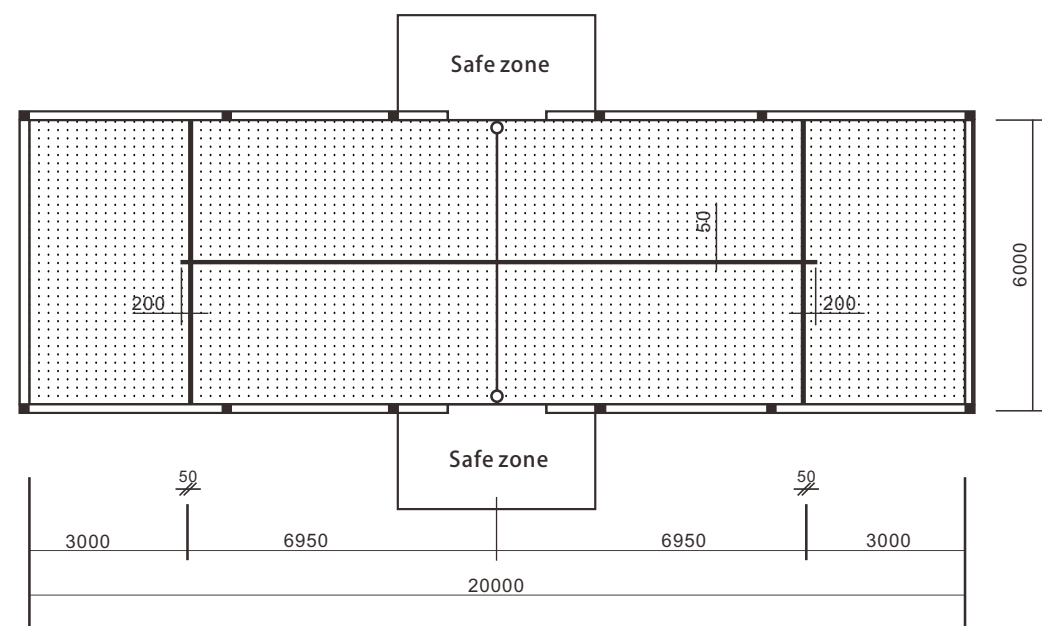

Anti-UV
Non-directional
Maintain the direction of ball

Advantages of Padel Grass :

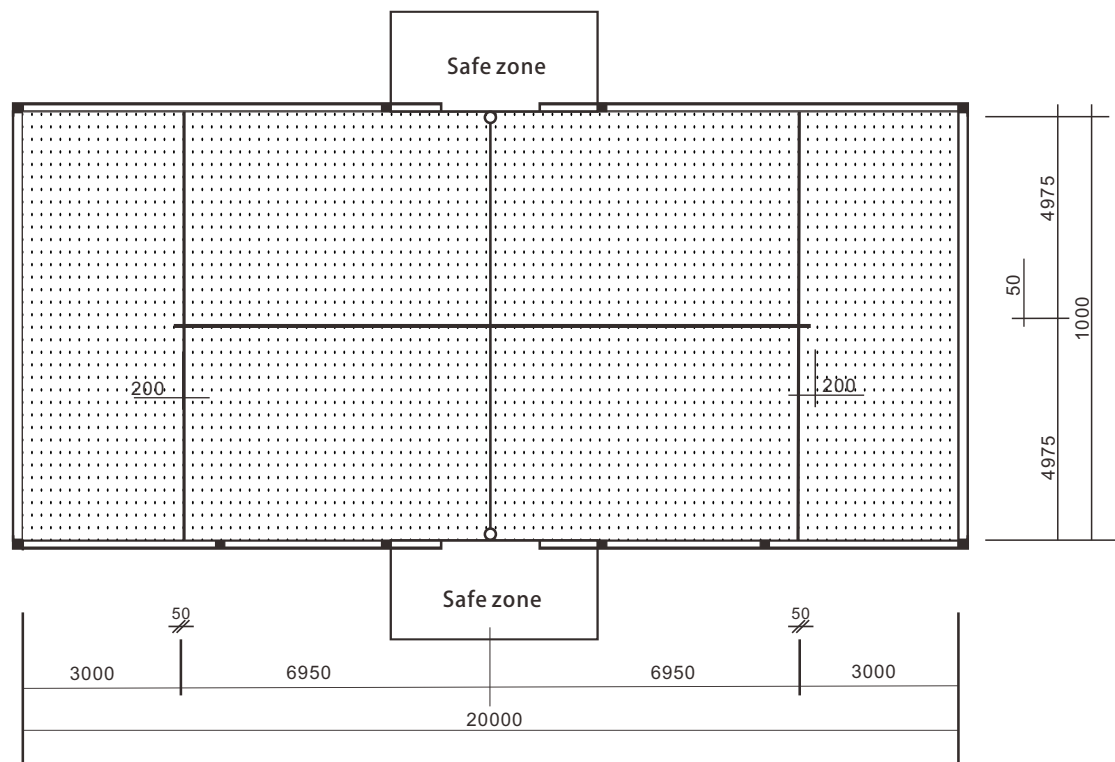

- | | |
|-------------------------------------|--|
| Grass fiber: | Composed of a unique 100% polyethylene polymer formula and high Dtex, it endows grass fiber with super strong wear resistance and excellent UV aging resistance. |
| Unique curl yarn technology: | Use KDK yarn curl process, give excellent curl fixing effect. The Yarn will curl evenly and keep the property for a long time. The grass system will be non-directional and much even than normal grass. |
| High density: | omnidirectional compaction brings faster and more accurate ball rolling characteristics and better water retention performance. |
| Professional Materials: | ACT's entire series of products use top-notch environmentally friendly raw materials such as DOW, Trinseo, BASF, etc., and do not contain any heavy metals or other harmful substances. |
| Professional installation: | ACT has the top installation team with rich and professional experience in field installation, creating a perfect ACT artificial grass system. |
